## BIO

Sam is an award winning artist with Persian roots from Hamburg. He grew up in Bremen and Tehran, and this is reflected in his work through the influence of various cultures.

He is a trance, metal and house producer, singer, songwriter, and composer, and has many years of experience in painting, graphic design, photography, and, above all, 3D modeling. His instruments are the keyboard and guitar, which can be heard in many tracks in combination with other instruments.

Driven by his passion for music and film, he develops new audiovisual concepts for film and stage, such as experimental productions in immersive media (AR / MR / XR).

From 2021 to 2024, new releases appeared every month. Currently, 38 releases with 74 tracks are available.

In "Feuerstein" (released by Dark Vibes), he sang in German for the first time in the metal genre.

The latest release, titled "I'm Virtual," was first released in January 2026 by AWAL Music, in which he sings in English. Future tracks will be released in English, German, and, for the first time, in Persian.
